

airsac[®]

INNOVATIVE INFLATABLE PACKAGING

SAVE TIME, SAVE SPACE AND SAVE MONEY WITH **airsac**

INTRODUCING airsac®

Airsac® is an innovative, inflatable packaging system that's been developed to protect fragile and breakable goods in transit. It's composed of just 2% film and 98% air when inflated and it can even be reused and recycled.

The multi-chamber design of Airsac® means that even in the event that one chamber bursts during shipping, your goods remain safe and undamaged.

Available in a range of sizes, Airsac® can be used to securely post a wide range of products such as wine, electronics, pharmaceuticals and more.

SO HOW DOES AIRSAC® WORK?

It's as easy as one, two, three:

Using Airsac® is a quick and simple process. Airsac® is supplied flat, so you inflate it when you're ready to post your goods.

01

Inflate Airsac® using compressed air or a hand pump

02

Pack your goods into Airsac®

03

Post the well protected goods to your customer

THE BENEFITS OF airsac®

SAVE MONEY

SAVE MONEY

Airsac® can help you minimise your total packaging costs by offering efficiencies throughout the supply chain. From reducing pack size to drastically reducing damages in transit, Airsac® can benefit your bottom line:

- **Virtually eliminate damages & returns** – as your goods will be protected, Airsac® minimises the costly expense of replacing your product and any reverse logistics
- **Reduce packaging costs** – Airsac® can reduce your pack size by up to 30%, helping you save money spent on packing materials
- **Lessen storage and transport costs** – as Airsac® is supplied flat, it is space efficient, minimising the money you spend on storage. Airsac® can also reduce delivery costs as it's lighter than other protective packaging
- **Cost effective set up** – all you need to get started is an inexpensive hand pump, small compressor or a regulated airline

SAVE TIME

SAVE TIME

The Airsac® inflatable packaging range can help your packing operation become more effective and time efficient.

- **Consistent pack size** – Airsac® offers a consistent pack size every time and can be conveniently stored on work stations for easy access
- **Quick packing** – inflating in seconds, Airsac® can save your packers valuable time and help you increase your throughput
- **Plan effectively** – the consistent pack size that Airsac® offers enables effective pallet and delivery planning

SAVE THE ENVIRONMENT

SAVE THE ENVIRONMENT

Airsac® is an environmentally friendly form of packaging, which can help enhance your green credentials.

- **100% recyclable** – made of low density polythene and nylon, Airsac® can be recycled at the end of its life
- **Less packaging waste** – as Airsac® can reduce your pack size and offers control over the packing process, you'll be producing significantly less waste
- **Minimise transport impact** – due to Airsac® being light and space saving, it has much less impact on the environment as fewer vehicles are required to transport it
- **Contributes to your green goals** – Airsac® is compact, less wasteful and recyclable, so can support your environmental and CSR goals

THE **air**sac[®] PROTECTIVE PACKAGING RANGE

You can choose to buy **Airsac[®]** on its own or purchase an **Airsac[®] kit**. All kits include a transit box to match the **Airsac[®]**.

AIRSAC[®] FOR WINE, BEER AND SPIRITS

No one wants to waste wine, beer or spirits! The **Airsac[®]** wine range has been designed to protect glass bottles in transit, so it's perfect for drinks retailers with an online shop.

Airsac[®] products in this range are available to protect from one to 12 bottles of wine. Our standard wine **Airsacs[®]** will comfortably fit a standard champagne bottle, or our **Magnum **Airsac[®]**** can be used for larger champagne bottles and 1 litre spirits. The beer **Airsac[®]** range is available to protect cases of three to 12 bottles of ale, cider and lager up to 550ml.

AIRSAC® FOR FRAMES AND MIRRORS

The Airsac® products for frames and mirrors have been designed with additional impact protection to guard the very fragile corners and edges. The triangular design absorbs any pressure and disperses it so your goods remain in one piece.

Product Code	Description	Dimensions (mm)	Pack Size
AIRSACPCF1	Picture Frame Corner Airsac® 1	345 x 180 x 110	100
AIRSACPCF2	Picture Frame Corner Airsac® 2	110 x 255 x 30	100

TIPS:

Our tablet and laptop Airsacs® can also be used to pack a variety of picture frames!

You can use a heat sealer to customise Airsac® on a Roll – ask us for a demonstration.

AIRSAC® ON A ROLL

If you're packing a wide range of fragile and breakable goods, Airsac® on a Roll offers a flexible option for protecting your products. Choose how much you need, cut to length and inflate as usual.

Product Code	Description	Dimensions (mm)	Pack Size
AIRSACR44030C	Airsac on a Roll 440	440mm x 250m, creased every 30mm	1
AIRSACR80060C	Airsac on a Roll 800	800 x 250mm, creased every 60mm	1

MEANS OF INFLATION

Airsac® is supplied flat, so you inflate it at point of use. There are a number of options available to get you started...

Product Code	Product Name	Description	Pack Size
AIRSACHPUMP	Airsac® Hand Pump	Manual hand pump, suitable for low volumes	1
COMPPT5K	Airsac® Oil Free Compressor	UK made air compressor, supplied with 12 month warranty, hose and trigger gun	1
AIRSACBBK	Airsac® Bench Buddy Kit	Desk mounted inflation attachment for compressors. Includes bracket mounted nozzle, foot pedal and tubing	1

airsac® ULTRAMAIL

THE INFLATABLE MAILING BAG

Airsac® UltraMail features a traditional mailing bag lined with our inflatable packaging. It's been designed to provide higher-grade protection than the likes of bubble lined or padded envelopes, and can even be used to replace a box in some instances.

The mailing bag outer can be customised to match your branding and you can be sure your goods will be protected with the Airsac® lining. Plus, like the rest of our Airsac® range, UltraMail is super easy to use.

Call 01902 496666 or email sales@airsac.co.uk today for prices.

WHY CHOOSE AIRSAC ULTRAMAIL FOR YOUR PACKING OPERATION?

- **Virtually eliminate damages & returns** – Airsac® UltraMail minimises the costly expense of replacing damaged goods and reverse logistics
- **An all-in-one solution** – Airsac® UltraMail is a complete mailing solution that removes the need for cartons, void fill and tape, meaning you can reduce your packaging material usage and save money
- **Eco-friendly option** – Airsac® UltraMail is 100% recyclable, helping you minimise packaging waste liability and boosting your green credentials
- **Speed up your packaging** – you can inflate Airsac® UltraMail within seconds, cutting your packing time drastically – much faster than assembling a box

BESPOKE air^{sac}[®] DESIGNS

INFLATABLE PACKAGING THAT'S JUST FOR YOU

If you don't think there's a product for you in the Airsac[®] stock range, talk to us about a custom Airsac[®] design.

Our team are experts in designing packaging solutions, so if you need something bespoke for your business, you're in safe hands.

Some examples of the products we've designed bespoke Airsacs[®] for include:

- Auto parts, like headlamps and windscreens
- Bathroom ceramics
- Paint tins and chemical containers
- Shower screens
- Sculptures and artwork
- High value speakers
- Train signals
- Plus lots more!

WHAT TO EXPECT WHEN DEVELOPING A BESPOKE AIRSAC[®] WITH NETWORK PACKAGING

- 1) Call or email us about your custom Airsac[®] enquiry. One of our Airsac[®] experts will come and visit you or arrange to collect the goods you want to pack in an Airsac[®]. **It's essential we can have a sample of your product at this stage – it ensures we can develop accurate solutions**
- 2) We'll draft a design with our manufacturer – so we can provide you with a cost estimate and minimum order quantity. This usually takes around **2 weeks**. Once you've approved the estimate, samples will be made, so you can test out your personal Airsac[®] design
- 3) When samples arrive, we'll check they're fit for purpose, design a matching box and arrange to demonstrate them for you
- 4) At the testing stage, you can choose to approve or amend your Airsac[®]
- 5) Once your design is approved and you place an order, your bespoke Airsacs[®] will be with you in **8 – 10 weeks**

Call 01902 496666 or email
sales@airsac.co.uk with your enquiry.

CHALLENGE US TO FIND AN **airsac**[®] THAT WILL PROTECT YOUR PRODUCT
