Both the MSW-M and PVS-2-PP have wheels for added mobility, as well as being manual, so no external power source is required. This means there's no need to shift pallets to a central wrapping point - helping to save space, time and effort.

MSW-M

Manual, wrap height up to 2m

- > Reduces operator fatigue, eliminates bending and stretching
- > Adjustable tension ensures consistent wrapping with reduced film wastage
- > Can be moved to the load, no need for a dedicated wrapping area, small footprint for easy storage
- > Dimensions: W560mm x D1150mm x H2100mm

£1783

For effortless pallet strapping anywhere - and in less time - look no further than the PVS-2-PP. This adjustable pallet strapping frame is completely mobile and designed for applying 2 vertical PP straps to UK or Euro pallets. With simple operation, there's no power source or machine maintenance needed.

This friction weld tool, which includes a battery and charger, is ideal for creating durable seals on PP or PET strapping with a width of 16mm. Powered by a 14.4vdc Li-Ion battery, this tool features one-handed operation, and adjustable tension and seal time.
