Innovative inflatable packaging

Product Brochure

Save time, save space and save money with **airsac**

PART OF  **MACFARLANE  
PACKAGING**

# INTRODUCING **airsac**<sup>®</sup>

**Airsac<sup>®</sup> is an innovative, inflatable packaging system that's been developed to protect fragile and breakable goods in transit. It's composed of just 2% film and 98% air when inflated and it can even be reused and recycled.**

The multi-chamber design of Airsac<sup>®</sup> means that even in the event that one chamber bursts during shipping, your goods remain safe and undamaged.

Available in a range of sizes, Airsac<sup>®</sup> can be used to securely post a wide range of products such as wine, electronics, pharmaceuticals and more.

SO HOW  
DOES **airsac**<sup>®</sup>  
WORK?

It's as easy as  
one, two, three:

Using Airsac<sup>®</sup> is a quick and simple process. Airsac<sup>®</sup> is supplied flat, so you inflate it when you're ready to post your goods.

01 Inflate Airsac<sup>®</sup> using compressed air or a hand pump

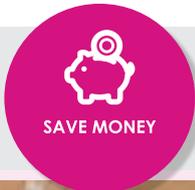

02 Pack your goods into Airsac<sup>®</sup>

03 Post the well protected goods to your customer

# THE BENEFITS OF **airsac**<sup>®</sup>

SAVE MONEY

## SAVE MONEY

Airsac<sup>®</sup> can help you minimise your total packaging costs by offering efficiencies throughout the supply chain. From decreasing pack size to drastically reducing damages in transit, Airsac<sup>®</sup> can benefit your bottom line:

- **Virtually eliminate damages & returns** – as your goods will be protected, Airsac<sup>®</sup> minimises the costly expense of replacing your product and any reverse logistics
- **Reduce packaging costs** – Airsac<sup>®</sup> can reduce your pack size by up to 30%, helping you save money spent on packing materials
- **Lessen storage and transport costs** – as Airsac<sup>®</sup> is supplied flat, it is space efficient, minimising the money you spend on storage. Airsac<sup>®</sup> can also reduce delivery costs as it's lighter than other protective packaging
- **Cost effective set up** – all you need to get started is an inexpensive hand pump, small compressor or a regulated airline

SAVE TIME

## SAVE TIME

The Airsac<sup>®</sup> inflatable packaging range can help your packing operation become more effective and time efficient.

- **Consistent pack size** – Airsac<sup>®</sup> offers a consistent pack size every time and can be conveniently stored on work stations for easy access
- **Quick packing** – inflating in seconds, Airsac<sup>®</sup> can save your packers valuable time and help you increase your throughput
- **Plan effectively** – the consistent pack size that Airsac<sup>®</sup> offers enables effective pallet and delivery planning

SAVE THE ENVIRONMENT

## SAVE THE ENVIRONMENT

Airsac<sup>®</sup> is an environmentally friendly form of packaging, which can help enhance your green credentials.

- **100% recyclable** – made of barrier sealed Low Density Polyethylene, Airsac<sup>®</sup> can be recycled at the end of its life
- **Less packaging waste** – as Airsac<sup>®</sup> can reduce your pack size and offers control over the packing process, you'll be producing significantly less waste
- **Minimise transport impact** – due to Airsac<sup>®</sup> being light and space saving, it has much less impact on the environment. Fewer vehicles are required to transport it and it's light to ship, so CO2 emissions will be reduced
- **Contributes to your green goals** – Airsac<sup>®</sup> is compact, less wasteful and recyclable, so can support your environmental and CSR goals

For more information about Airsac<sup>®</sup> and the environment see page 4

# airsac® and the environment

As packaging is a vital commodity for many businesses, it is crucial we consider ways to minimise the impact that packaging can have on our environment *without* compromising the level of protection it provides. Airsac® offers optimal protection, whilst being recyclable and reusable...

## 1. What is Airsac® made from?

All Airsac® packaging is made from Low Density Polyethylene (LDPE). The film used to make Airsac® is classed as a category 4 plastic under ASTM International standards. LDPE is considered less toxic than other plastics, and safe for use.

## 2. Can Airsac® be reused?

Yes, Airsac® can be reused. Airsac® retains air within its chambers, so it can be used multiple times and is therefore not classed as a single-use plastic.

## 3. Can Airsac® be recycled?

Yes, Airsac® can be recycled.

## 4. How can Airsac® be recycled?

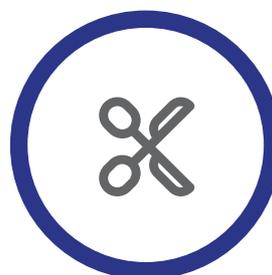

Currently, category 4 plastics are not widely recycled at kerbside. Due to this, we advise that end users first check with their local authority to see what their recycling options are.

If kerbside or local authority recycling isn't an option, the easiest step is to use a return-to-store recycling facility at a large supermarket.

The end user can visit [recyclenow.com/what-to-do-with/plastic-film](https://www.recyclenow.com/what-to-do-with/plastic-film) and enter their postcode to locate their nearest recycling point. Remember, all Airsac® packaging must be deflated before it's recycled. To deflate, the end user can simply cut across the chambers using a pair of household scissors.

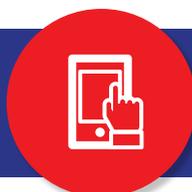

Check your local recycling options

Safely deflate Airsac® with scissors

Put Airsac® in your household recycling or take to recycling point

# The Airsac® Range

You can choose to buy Airsac® on its own or purchase an Airsac® kit. All kits include a transit box to match the Airsac®.

## Airsac® for Wine, Beer and Spirits

No one wants to waste wine, beer or spirits! The Airsac® drinks range has been designed to protect glass bottles in transit, so it's perfect for distributors or retailers with an online shop.

CSPAIRSACTV40/42K	40"- 42" TV Airsac® Kit	90 x 550 x 390 in each Airsac®	10
CSPAIRSACTV47/50K	47"- 50" TV Airsac® Kit	90 x 640 x 430 in each Airsac®	10
CSPAIRSACTV55/65k	55" - 65" TV Airsac® Kit	90 x 770 x 565 in each Airsac®	10

### TIPS:

Our tablet and laptop Airsacs® can also be used to pack a variety of picture frames!

## Airsac® for Bottles, Jars, Tins & Liquids

This range of Airsac® products is suitable for smaller bottles or jars – ideal for packing jams and sauces or even pharmaceuticals and cosmetics.

Product Code	Description	Inflated Internal Dimensions (mm)	Pack Size
AIRSACMB	Medium 250ml Bottle Airsac®	100 x 30 x 135	50
CSPAIRSACMBK	Medium 250ml Bottle Airsac® Kit	100 x 30 x 135	50
AIRSACLB	Large 500ml Bottle Airsac®	80 x 80 x 200	50
CSPAIRSACLBK	Large 500ml Bottle Airsac® Kit	80 x 80 x 200	50
AIRSACJJ1	Jam Jar Airsac® Size 1	69 x 69 x 152	50
AIRSACJJ2	Jam Jar Airsac® Size 2	80 x 80 x 120	50
AIRSAC5L	5 Litre Tin Airsac®	150 x 150 x 320	50
AIRSACHS200ML	200ml Heat Seal Airsac®	65 x 65 x 180	50
AIRSACHS1L	1 Litre Heat Seal Airsac®	110 x 40 x 285	50
AIRSACHS5L	5 Litre Heat Seal Airsac®	180 x 180 x 310	50

## Airsac® for Frames and Mirrors

The Airsac® products for frames and mirrors have been designed with additional impact protection to guard very fragile corners and edges.

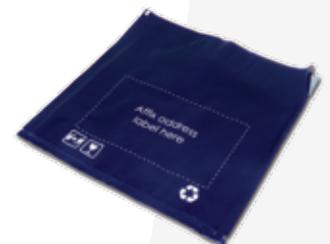

Product Code	Description	Inflated Internal Dimensions (mm)	Pack Size
AIRSACPFC1	Picture Frame Corner Airsac® 1	345 x 180 x 110	100
AIRSACPFC2	Picture Frame Corner Airsac® 2	110 x 255 x 30	100

## Airsac® UltraMail

Airsac® UltraMail is our all-in-one protective postal packaging solution. It's a regular mailing bag lined with Airsac®, so you can inflate, pack and post your products in no time.

Product Code	Description	Inflated Internal Dimensions (mm)	Pack Size
ULTRAMAILMPL	Mobile Phone Airsac® UltraMail	165 x 85 x 15	On request
ULTRAMAILBEA	Beauty Airsac® UltraMail	74 x 49 x 147	On request
ULTRAMAILTAB	Tablet Airsac® UltraMail	167 x 260 x 15	On request
ULTRAMAILNB15	15" Laptop Airsac® UltraMail	270 x 385 x 30	On request
ULTRAMAILLARGE	Large Airsac® UltraMail	445 x 490 x 70	On request

Please note, **UltraMail bags** are subject to bespoke timescales. Please see page 10.

## Airsac® on a Roll

If you're packing a wide range of fragile and breakable goods, Airsac® on a Roll is a flexible option for protecting your products. Choose how much you need, cut to length and inflate as usual.

Product Code	Description	Roll Dimensions (width x length)	Pack Size
AIRSACR44030C	Airsac® on a Roll 440	440mm x 250m, creased every 30mm	1
AIRSACR80060C	Airsac® on a Roll 800	800mm x 250m, creased every 60mm	1
AIRSACR500B	Airsac® Bubble 500	500mm x 250m, perforated every 300mm	1
AIRSACR800B	Airsac® Bubble 800	800mm x 250m, perforated every 300mm	1
AIRSACR1000B	Airsac® Bubble 1000	1000mm x 150m, perforated every 300mm	1
AIRSACR1200B	Airsac® Bubble 1200	1200mm x 150m, perforated every 300mm	1

### TIPS:

You can use a heat sealer to customise Airsac® on a Roll – ask us for a demonstration.

## Means of Inflation

Airsac® is supplied flat, so you inflate it at point of use. There are a number of options available to get you started...

Product Code	Description	Details	Pack Size
AIRSACHPUMP	Airsac® Hand Pump	Manual hand pump, suitable for low volumes	1
COMPPT5K	Airsac® Oil Free Compressor	UK made air compressor, supplied with 12 month warranty, hose and trigger gun	1

# airsac<sup>®</sup> Auto Inflation Systems

In addition to day to day Airsac<sup>®</sup> inflation equipment, we offer a selection of semi and fully automated inflation machines for Airsac<sup>®</sup>. From simple table top units to on-demand delivery systems we can help you find the perfect inflation solution for your business.

They're ideal if you're looking to speed up your packing process or need equipment to help you manage a high-demand packing environment. The Airsac<sup>®</sup> inflation systems we offer can inflate a large selection of products in the style of our stock range, such as:

- **Wine and beer Airsacs<sup>®</sup>**
- **Airsacs<sup>®</sup> for laptops, tablets and mobile phones**
- **Endcap and corner style Airsacs<sup>®</sup> like our TV, PC and picture frame bags**
- **Airsac<sup>®</sup> on a Roll and Airsac<sup>®</sup> Bubble**

Choosing one of our Airsac<sup>®</sup> inflation systems will offer you a range of benefits, including:

- ✓ **Improved productivity**
- ✓ **Reduced handling time**
- ✓ **Releasing storage space**
- ✓ **Consistent inflation pressures**

## Interested?

Get in touch with the Airsac<sup>®</sup> team to find the best inflation option for your business. Call **01902 496 666** or email **[sales@airsac.co.uk](mailto:sales@airsac.co.uk)**

# Bespoke airsac® Designs

## INFLATABLE PACKAGING THAT'S JUST FOR YOU

If you don't think there's a product for you in the Airsac® stock range, talk to us about a custom Airsac® design.

Some examples of the products we've designed bespoke Airsacs® for include:

- Auto parts, like headlamps and windscreens
- Bathroom ceramics
- Paint tins and chemical containers
- Shower screens
- Sculptures and artwork
- High value speakers
- Train signals
- Plus lots more!

Custom Airsac® products can also be printed with your branding or design. We offer up to four spot colours, which can be Pantone matched.

### What to expect when developing a bespoke Airsac® with Network Packaging

- 1) Call or email us about your custom Airsac® enquiry. One of our Airsac® experts will come and visit you or arrange to collect the goods you want to pack in an Airsac®. **It's essential we can have a sample of your product at this stage – it ensures we can develop accurate solutions**
- 2) We'll draft a design with our manufacturer – so we can provide you with a cost estimate and minimum order quantity. This usually takes up to 2 weeks. Once you've approved the estimate, samples will be made, so you can test out your personal Airsac® design
- 3) When samples arrive, we'll check they're fit for purpose, design a matching box if required and arrange to demonstrate them for you
- 4) At the testing stage, you can choose to approve or amend your Airsac®
- 5) Once your design is approved and you place an order, your bespoke Airsacs® will be delivered within a time frame we agree with you

**All timescales are estimates and subject to design complexity and factory working hours.**

# Earn discounts with the airsac® reward scheme

Every time you buy Airsac® online at [airsac.co.uk](http://airsac.co.uk) you'll collect reward points. Your reward points translate into real discounts, that you can use to save money on future Airsac® orders.

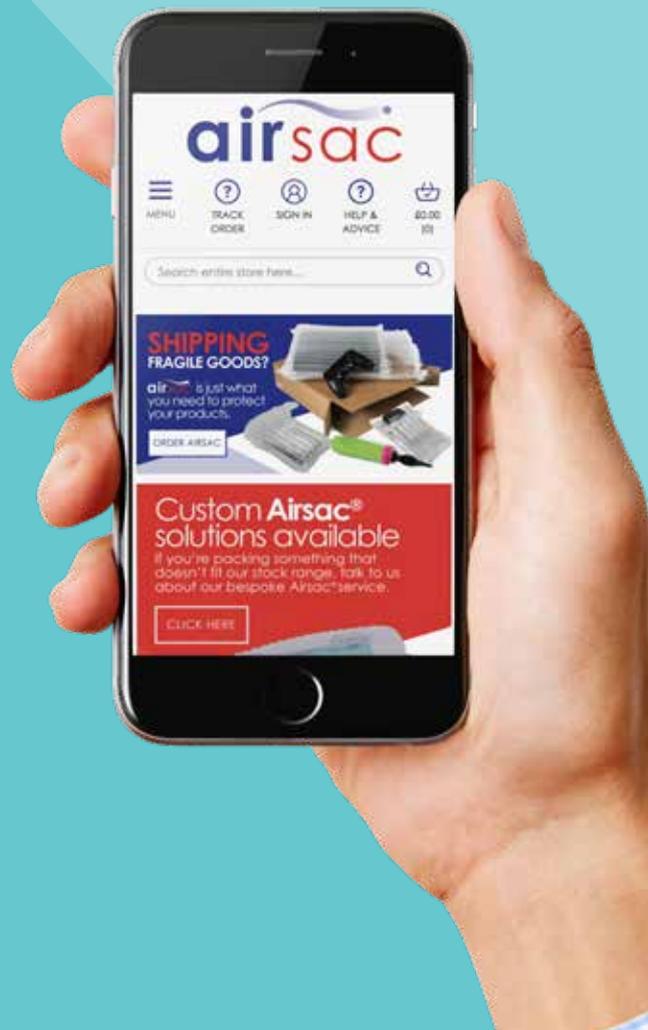

## How does the reward scheme work?

For every £2.00 you spend on the Airsac® website, you'll earn points worth £0.02. So, for every £100 you spend you'll earn £1 back.

## Bonus points when you register your online account

When you register for a new account on [airsac.co.uk](http://airsac.co.uk) you'll earn bonus reward points. You can earn even more points if you submit a product review or subscribe to our mailing list.

Visit [airsac.co.uk/reward-points](http://airsac.co.uk/reward-points) to learn more.

## 10% OFF ALL NEW CUSTOMER ORDERS ONLINE

To welcome all new Airsac® customers, we offer **10% off all new orders** placed online when they're £75 or more.

To claim this offer, simply enter code **NEWCUST** when you checkout.

## AIRSAC® TRADE ACCOUNTS AVAILABLE

If you're a business and want a trade account, we offer 30-day terms.

**Interested?**  
Contact us to apply today.

This offer is available exclusively online and may be withdrawn at any time.

# CHALLENGE US TO FIND AN **airsac**® THAT WILL PROTECT YOUR PRODUCT

**10% OFF** FOR NEW CUSTOMERS!  
SEE PAGE 11 FOR DETAILS

**Network Packaging is a packaging materials distributor. We provide packaging solutions that will add value to your business – saving you time and money throughout the supply chain.**

As well as Airsac®, we can help you with everything from boxes and consumables like tape through to packaging machinery and accessories.

We're also part of the UK's largest packaging business, Macfarlane Packaging. This means we can give you access to the biggest packaging range in the country, as well as innovation and design centres, so we're confident we can support you with your packaging needs.

**Learn more about what we can do for you at [networkpack.co.uk](http://networkpack.co.uk) and [airsac.co.uk](http://airsac.co.uk)**
